## STANDARD SHORT PLATFORM SCISSOR LIFT

### SPECIFICATIONS, FEATURES AND OPTIONAL EXTRAS:

#### OPERATIONAL FEATURES:

- Maximum optimization of floor space with the flush mount version
- The torsion bar ensures a perfect level between the platforms. No need for periodic adjustments

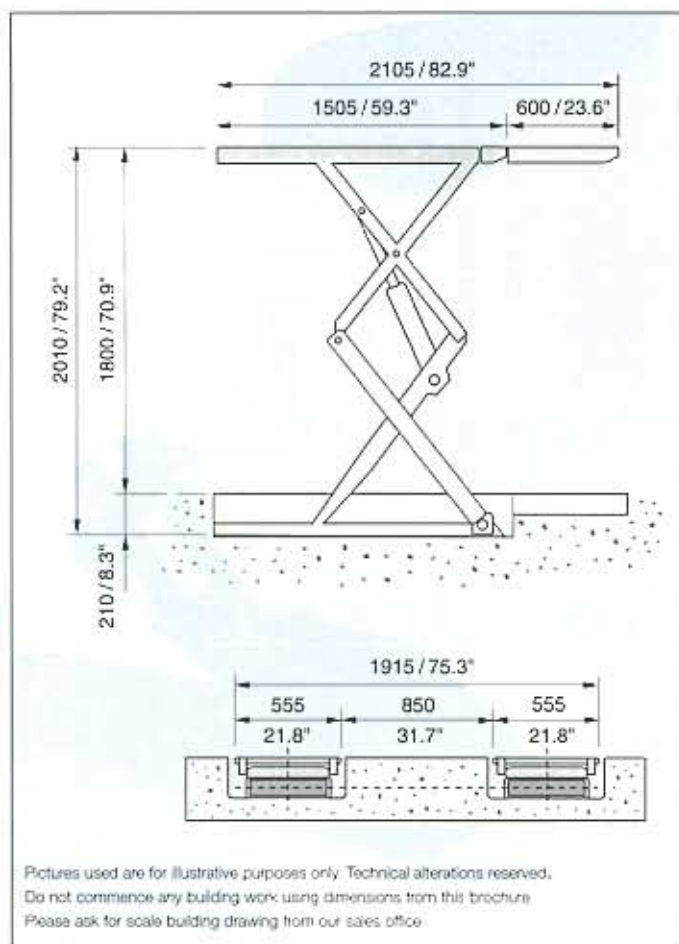

#### Maximum safety:

- Double piston at reduced travel
- Hydraulic locking valve for each piston
- Antishearing system composed by safety bars on the platforms
- Two photocells for level control
- Self-lubricating bushings and pins throughout for maximum strength during operation and reduced maintenance
- Manual device for lift lowering in case of power cut

- Strong and stable when fully extended
- Anti-skid surface with diamond plate for safe drive-on and off operations
- Control panel of extremely reduced dimensions

#### OPTIONAL EXTRAS:

- Various fitting kits for cross-country vehicles and light vans, according to load distribution
- Control panel with waterproof, lockable cover kit for outdoor installation

#### TECHNICAL DATA – Europa 36R

Capacity	Kg	3600
Motor power (3ph)	kW	2.5
Motor power (1ph)	kW	1.8
Lifting Time (3ph)	secs	40
Lifting Time (1ph)	secs	40
Lowering Time (1ph)	secs	50
Power supply (3ph)		AC 50 Hz, 380-415V
Power supply (1ph)		AC 50 Hz, 220-240V
